ABSTRACT

Please stick to the format of this template in all respects (fonts, sizes, spacings etc.). For inserting figures, follow the examples below.

Figure 1: Type figure caption type here.

Number references in the order of appearance. Refer to cited literature by its number in square brackets. References should be styled and punctuated according to the following examples: journal article [1], book [2], thesis [3], report [4], proceedings [5], and edited book [6]. Always give inclusive page numbers for references to journal articles and a page or chapter number for books. Each reference must be cited in the text.

Generate a pdf file (with fonts embedded, i.e., in ISO 19005 compatible PDF/A format), and **send us both the .pdf file and the source .odt file, the latter zipped into .zip format.**

Figure 2: Type figure caption type here.

Figure 3: Type figure caption type here.

The abstract must be longer than half a page but should not exceed one page in length and 2 MB in size. Thank you for your patience and cooperation. If needed we will make formatting corrections on your source file and send you the final version for your approval.
